

# *Growing Better*

A Strategic Plan to Meet the Needs  
of Idaho Agriculture

*2006-2011*

# *Strong roots*

**T**he Idaho Legislature created the Idaho State Department of Agriculture (ISDA) in 1919 to assist and regulate the state's fast-growing agricultural industry.

The primary purposes for establishment were to protect Idaho's crops and livestock from the introduction and spread of pests and transmittable diseases, to help provide the industry with a system for the orderly marketing of agricultural commodities, and to protect consumers from contaminated products or fraudulent marketing practices.

Those purposes still drive the department to-

day.

The Idaho State Department of Agriculture is now 87 years old, but it continues to be a youthful, creative and vibrant state agency.

In May 2005, the department unveiled a new website which is second-to-none in caliber and ease of use.

The site contains detailed descriptions of the department's 65 statutory responsibilities, including an alphabetical list of programs under the agency's jurisdiction.

Everything from news releases to smoke management program updates can be found on the website.

# *Guided by a vision*

**T**he Idaho State Department of Agriculture has an ever-important place in one of the state's largest industry sectors. We recognize that Idaho's economic well-being is forever tied to the health of its farming and ranching. We also recognize that new opportunities exist that will redefine the future of agriculture in Idaho. As agriculture changes, ensuring efficient and superior service delivery will continue to be the department's foremost priority.

The director and his administrative staff believe that fostering an at-

mosphere of mutual respect – which encourages personal and professional development through education and training, as well as provides a challenging work environment – is crucial to departmental success.

Personnel strive to work cooperatively at all levels, utilizing appropriate technologies and tools to support creative, responsive and accurate decisions.

Above all, ISDA employees pledge to optimize the value of those funds entrusted to the department, and to dedicate all resources to the optimal benefit of all Idahoans.

# Goal 1:

## PROVIDE SUPERIOR SERVICE TO IDAHO BY FULFILLING OUR CORE STATUTORY RESPONSIBILITIES

### OBJECTIVE

Protect the public, animals and environment using regulation and education.

### STRATEGIES

- Offer superior protection to the public and agriculture industry by focusing resources on animal and plant disease control and prevention.
- Devote department resources to address public concerns regarding animal care and water and air quality.
- Conduct routine inspections and respond to complaints; use regulatory actions when necessary.
- Work with the agriculture industry to identify Best Management Practices and provide engineering, worker/farm safety and other technical support.
- Continue to educate the agriculture industry about environmental stewardship and statutory obligations.
- Provide the public with timely and accurate information about regulatory and monitoring activities.
- Support full implementation of a records management program.

### DESIRED OUTCOMES

Idaho's agriculture industry will continue to be robust without adverse impacts on the public or environment. **Consumers will benefit from quality agricultural products.**

# Goal 2:

BE A PRO-ACTIVE RESOURCE TO QUICKLY ADAPT TO NEW CHALLENGES AND OPPORTUNITIES FACING IDAHO

## OBJECTIVE

Stand ready to address new challenges, such as animal identification, domestic terrorism, invasive species and noxious weeds.

## STRATEGIES

- Work closely with the public, agriculture industry and other government agencies to identify emerging issues.
- Seek a stable funding source to combat noxious weeds, including Eurasian Watermilfoil, and invasive species.
- Seek funding sources to continue implementation of an animal identification system.
- Keep legislators informed of new concerns, challenges and opportunities.
- Encourage employee innovation, creativity and forward-thinking.
- Continue to examine the department's organizational and operational framework to find efficiencies.

## DESIRED OUTCOMES

The agency will be prepared for any new opportunities and threats, and will quickly respond to each.

# Goal 3:

## CONTINUE TO SUPPORT THE GROWTH AND SUSTAINABILITY OF IDAHO'S AGRICULTURE INDUSTRY

### OBJECTIVE

Increase domestic and international sales opportunities of Idaho food and agricultural products to foster industry growth and profitability.

### STRATEGIES

- Promote Idaho agriculture products through trade shows, trade missions, in-store promotions, cooking shows publications and other events.
- Increase the identity, awareness and consumption of products grown and processed in Idaho through the Idaho Preferred™ label.
- Increase the use of locally grown and processed products in Idaho school lunch menus and school fund-raisers.
- Increase exports through management of the Idaho Trade Office in Mexico and through partnerships with the state's trade offices in Taiwan, Korea, China and Japan.
- Work to identify and remove trade barriers that prohibit or limit the export of Idaho agriculture products.
- Educate Idaho companies and growers on new marketing techniques and opportunities.
- Foster industry partnerships to address marketing issues such as transportation and biotechnology.

### DESIRED OUTCOMES

Idaho's agriculture economy will remain sustainable and viable

# Goal 4:

## FOSTER CONFIDENCE IN IDAHO'S AGRICULTURE INDUSTRY AND MARKET TRANSACTIONS

### OBJECTIVE

Serve the public and agriculture industry by maintaining a strong commitment to those programs intended to safeguard consumer confidence.

### STRATEGIES

- Continue to ensure the accuracy and reliability of scales and devices that are used by consumers and producers.
- Remain committed to programs that engender consumer and industry confidence, such as the Fresh Fruit and Vegetable Program, Warehouse Program and the Idaho Food Quality Assurance Lab.
- Respond quickly to concerns and issues raised by industry groups and by the public.

### DESIRED OUTCOMES

Market transactions will occur seamlessly and consumers will have a high level of confidence in the quality and accuracy of dealings.

# Harvesting results

## PERFORMANCE MEASURES

### GOAL 1

Provide superior service to Idaho by fulfilling our core statutory responsibilities

#### MEASURE 1

Inspect, test and grade all milk and dairy products. Inspect all dairy farms, milk processing facilities for sanitation requirements, and inspect all dairy farms for compliance with environmental rules. Benchmark: 12,500 sanitary inspections; 2,400 environmental inspections

#### MEASURE 2

Assure disease-free condition of plants and plant products for export through phytosanitary certification: Benchmark 95,000 acres inspected; 5,500 certificates issued

#### MEASURE 3

Conduct licensing, inspection and certification for compliance with state or federal law. Benchmark: 360 inspections, licenses and certifications conducted and issued

## PERFORMANCE MEASURES

### GOAL 2

Be a pro-active resource to quickly adapt to new challenges and opportunities facing Idaho

#### MEASURE 1

Conduct disease surveillance, suppression, control and eradication programs. Benchmark: 100%

#### MEASURE 2

Employees who find departmental efficiencies, are innovative and who engage other agencies to meet the challenges facing the agriculture industry are rewarded. Benchmark 100%

# Harvesting results

## PERFORMANCE MEASURES

### GOAL 3

Continue to support the growth and sustainability of Idaho's agriculture industry

#### MEASURE 1

Lead domestic and international trade shows and trade missions. Benchmark: 6 annually

#### MEASURE 2

Recruit Idaho companies to the Idaho Preferred™ program: 125 annually

## PERFORMANCE MEASURES

### GOAL 4

Serve the public and agriculture industry by maintaining a strong commitment to those programs intended to safeguard consumer confidence.

#### MEASURE 1

Inspect and test all known commercially-used weighing and measuring devices. Benchmark 100%

#### MEASURE 2

Maintain licensing of all warehouses as required by statute. Benchmark: 100%

#### MEASURE 3

Maintain a 100 percent level of providing inspection services to all those who request such service. Benchmark: 100%

# External factors

The Idaho State Department of Agriculture will strive to meet the goals contained in this strategic plan. There are, however, factors outside the department's control that may, on occasion, affect way the department meets the goals described in this document. Factors include:

- Emergency plant or animal health issues
- Weather
- Noxious weed, plant pest or invasive species issues
- Federal regulatory actions or mandates
- Availability of staff
- Availability of funding

*"Serving consumers and agriculture by safeguarding the public, animals and the environment through education and regulation."*
